SME Green Financing Programme

Product Briefing for Relationship Managers

Business Banking, SME Lending · October 2026

Agenda

- Programme overview and eligibility
- Eligible green projects
- Loan products and pricing
- Incentives and fee waivers
- Application process and approval timeline
- Ongoing borrower obligations

Programme overview

- The SME Green Financing Programme launched on 1 October 2026 with a total allocation of SGD 500 million.
- It helps small and medium enterprises fund projects that cut energy use, emissions or waste.
- Eligible borrowers: Singapore-registered SMEs with annual group turnover of up to SGD 100 million, at least 30% local shareholding and at least 2 years of operating history.
- The programme is owned by Business Banking, SME Lending and runs until 30 September 2028 or until the allocation is used up.

Eligible green projects

- Rooftop and ground-mounted solar photovoltaic (PV) installations
- Energy-efficient equipment: chillers, LED lighting, building management systems
- Electric vehicle (EV) fleet purchase and charging infrastructure
- New buildings or retrofits targeting BCA Green Mark Gold^{PLUS} or higher
- Waste-to-resource and water recycling systems

Projects must be verified by an independent assessor on the bank's approved panel before first drawdown.

Loan products and pricing

Loan product	Maximum quantum	Maximum tenure	Interest rate (p.a.)
Green Equipment Loan	SGD 5 million	7 years	3M SORA + 1.80%
Solar Financing Loan	SGD 3 million	10 years	Fixed 4.25%
EV Fleet Loan	SGD 2 million	5 years	3M SORA + 2.10%
Green Building Loan	SGD 10 million	15 years	3M SORA + 1.60%

Financing covers up to 80% of the verified project cost. Rates are indicative and subject to credit approval.

Incentives and fee waivers

- Green rate discount: 0.25% p.a. off the interest rate once the project is certified as complete by the independent assessor.
- Processing fee (normally 0.50% of the loan amount, minimum SGD 1,000) is waived for applications submitted by 31 March 2027.
- Assessor fees of up to SGD 3,000 per project are reimbursed on first drawdown.
- No prepayment penalty on Solar Financing Loans after year 3.

Application process

- Step 1 - Relationship Manager screens the SME and project for eligibility.
- Step 2 - Customer submits the application, project quotation and the last 2 years of financial statements.
- Step 3 - Independent assessor verifies the green project.
- Step 4 - Credit evaluation; approval decision within 10 business days of a complete application.
- Step 5 - Letter of Offer issued and accepted; drawdown against supplier invoices.

Ongoing borrower obligations

- Submit an annual impact report (energy saved, emissions avoided) within 90 days of each financial year end.
- If an impact report is late by more than 60 days, the green rate discount is withdrawn from the next interest period.
- Proceeds used for non-green purposes are a default event; the bank may recall the loan in full.
- Borrowers must keep the financed assets insured for their full replacement value.
